Term 5

What makes our world wonderful?

Curriculum

Welcome back to Term 5! With the summer term approaching, we're eagerly anticipating the sunny days ahead. In Nursery, we are excited to welcome a small group of new children to Caterpillar class and can't wait to have them join us.

This term, we'll be diving into the exploration of various life cycles. We will be going on walks to our school field to investigate and discuss life cycles and environmental changes, and we are thrilled to take the children along on this journey. Butterfly Class will also be embarking on an exciting adventure to explore Rochester Cathedral as part of our journey through learning about the wonders of Marvellous Medway!

Our sensory area and vegetable patch are now up and running, with the children particularly enjoying the calm area where they engage in bird watching, observe the water feature and share their interests while connecting with nature. We've already planted a few vegetables and flowers and are eagerly awaiting their growth. The children are enthusiastic about being part of this project and are learning to appreciate nature, finding comfort and joy in their outdoor environment as they cultivate plants and vegetables. We will continue to nurture this project throughout the term and eagerly await the blossoming of our summer flowers from the seeds planted by the children.

Additionally, children will be revisiting road safety awareness this term.

We're looking forward to an incredible term ahead as we continue to support your children's learning and development.

PE Reception Class

Please remember that PE lessons are on Fridays. Children should wear their PE kit to schools.

Home Learning

Reading

Your child will have their 'RWI Book Bag' updated weekly with new books. Please remember to access RWI eBooks/homework with the codes inside their reading record.

Please continue the fantastic job you are doing by reading regularly with your child.

Tea Time Talks

Thank you for your responses to the weekly Tea Time Talk questions. We will continue to post weekly questions that link to the children's learning on Tapestry.

Key dates for your diary

Monday 15th April - school reopens
